Controller Institut

## CMA Certification – The International Standard for Professionals in Controlling

The Certified Management Accountant (CMA) credential is an advanced professional certification that demonstrates your command of the critical accounting and financial management skills demanded by today's international businesses. Like the CFA for the banking industry and the CPA for auditing companies, the CMA sets a standard for professionalism in its field management accounting. In the last 40 years more than 50,000 professionals worldwide have earned this essential credential.

## CMA, IMA and Controller Institut

The CMA is offered and developed by the Institute of Management Accountants (IMA), the worldwide association for accountants and financial professionals working in business. IMA has more than 80,000 members worldwide and is committed to expand your professional skills, better manage your organization, and enhance your career. Controller Institut has established an exclusive partnership with IMA to form IMA's sixth European chapter in Austria.

## CMA Exam and Preparation Course

The CMA exams are computer-based tests that are administered in independent testing facilities in Vienna. The exam has two parts, one focusing on „Financial Reporting, Planning, Performance and Control“, the other on „Financial Decision Making“. Every part is covered by elaborate study materials. The exam is demanding and challenging: more than half of candidates do not succeed on the first attempt. The preparation course focusses on exam preparation and intensive test training. The experienced trainers give an overview of all relevant exam areas and concentrate on problem solving techniques and test questions. The IMA recommends a minimum of 200 hours of preparation per part. This course does not compensate for this learning investment, but helps you to translate your learning efforts into the best test result.

### Participants

The intensive workshop focuses on exam preparation. It addresses all candidates who want to enhance their career by attaining an international certification and complete the CMA exam. To register for the CMA-Exam, an academic degree (Bachelor's level or above) and specific work experience is required as well as the personal membership at Controller Institut and IMA.

### CMA Preparation Package – The Fast Track to the CMA

Controller Institut offers a unique package to enable you to succeed efficiently at your CMA exam. It includes an intensive exam preparation course and all requirements for becoming a CMA:

Price <span style="float: right;">EUR 1.090,-</span>

Fees are exclusive of all taxes.

# Expanding Your Career Options

## Measuring What Matters

The CMA program is designed specifically to validate mastery of the advanced skills required to manage finance functions within an organization, enabling you to deliver value in today's complex business environment. There are two parts to the CMA exam. Each part is four hours, and they can be taken in any order. The exam is structured as follows:

### Part 1 – Financial Reporting, Planning, Performance and Control

- External Financial Reporting Decisions
- Planning, Budgeting and Forecasting
- Performance Management
- Cost Management
- Internal Controls

### Part 2 – Financial Decision Making

- Financial Statement Analysis
- Corporate Finance
- Decision Analysis
- Risk Management
- Investment Decisions
- Professional Ethics

By focusing on advanced accounting and financial management skills, the exam is rigorous yet in line with on-the-job practice to help you perform better.

## Recognized by leading Companies

CMA certification can expand your opportunities in your current position and for the long term. Leading employers – from multinational corporations to private firms, academic institutions, and not-for-profit organizations – seek out CMAs to hire and promote in positions requiring critical accounting and financial management skills.

Today, CMAs hold key positions in a wide range of companies, including 3M, Alcoa, AT&T, Bank of America, Boeing, Cargill, Caterpillar, Hewlett-Packard, Johnson & Johnson, Procter & Gamble and Verizon.

Earn the CMA and join a network of more than 50,000 certified peers worldwide.

## Add Instant Credibility to Your Name with CMA Certification

CMA's globally earn 61% more than non-CMA's, demonstrate mastery of the 11 most vital practice areas in business, and are in high demand by the world's top employers.
